# BIOGRAPHY

Set with the goal to make as much fresh music as possible, Dark Velvet is an audible art project brought to you to experience darkness, light, and most importantly, the balance between the two. Drawing influence from more than just other music, this project is inspired from nature, technology, life, death, and every gray area in between. With an emphasis on the former, Dark Velvet strives for the listener to absorb this message hoping it can reflect in daily growth.

# ACCOMPLISHMENTS
